Experience

Developertown – Indianapolis, IN (fully remote)

Software Engineer II –> Software Engineer III

July 2020 - March 2024 (company cut 20% of employees due to lack of sales)

- Returned to Developertown to work with large-scale *React* and *TypeScript* applications. Working either from start to finish on new projects or contributing new features and bug fixes on previously built projects.
  - Leveraged multiple paradigms and frameworks (*Next/SPA/Astro*) and JavaScript libraries (see "What I've Worked With Lately" section.)
- Used multiple component libraries and approaches to UI. Also contributed to and helped build an entirely custom component library.
  - Gained experience with *ShadCN*, *Material UI*, *React Aria*, *Mantine*, and *Tailwind*.
- Helped build a full-stack *Astro* marketing project leveraging *Strapi* as a headless CMS allowing the client to manage their content.
- Worked on multiple *Vue* projects for a large, globally-known enterprise client.
- Worked in diverse ways amongst varying types and sizes of teams, and I am comfortable across both large teams and small ones.
- Experience consuming and interfacing with both *REST* and *GraphQL* back-ends.
- Wrote both unit tests and end-to-end tests with *Vitest*/*React Testing Library* and *Cypress*, respectfully, depending on the project.

What I've Worked With Lately

- React
- Next
- TypeScript
- Astro
- Tailwind
- ShadCN
- Go
- Tanstack (Table, Query)
- Strapi
- Vue
- Zustand/Jotai
- Drizzle
- Turborepo

Matchbook Creative – Indianapolis, IN

Senior Web Developer

September 2019 - July 2020

- I transitioned web build processes from WordPress to using CraftCMS as a headless data source with *GatsbyJS* as our React-based front-end.

- Involved in attending and presenting project pitches, sales calls, and exploratory meetings with existing and potential clients.

Developertown – Indianapolis, IN

Software Engineer

November 2018 - September 2019

- Worked on a large-scale React app leveraging TypeScript and Redux on a team of 10+ developers.

TrendyMinds – Indianapolis, IN

Junior Web Developer –> Web Developer

May 2014 - November 2018

- Cutting my teeth and learning the foundation of the skills I have today.
- Mostly PHP and CMS development with a little custom email development.
- Working in tandem with our marketing team.

Education

Indiana University Indianapolis — *B.S. Informatics*

2010 - 2014

---

*A little about me

My partner and I have recently moved to the Bay Area in San Rafael, CA after living and working in Indianapolis, IN for the past 8 years. In my spare time I love to travel, be outdoors, and enjoy life.
