Experience

Developertown, Indianapolis — *Software Engineer III*

July 2020 - February 2024 (Laid off due to lack of sales)

I returned to Developertown to continue to work with large-scale React/TypeScript applications and learn from mentors. Have developed multiple React applications from start to finish, taking various roles across teams, or working mostly solo.

Experience interacting with both REST and Graphql back-ends, various frameworks in addition to React (Vue/Astro), working with numerous headless CMSs, NextJS, and am comfortable overall in modern web stacks.

Matchbook Creative, Indianapolis — *Sr. Web Developer*

September 2019 - July 2020

Transitioned web build processes from WordPress to using CraftCMS as a headless data source with GatsbyJS as our front-end.

Involved in attending and presenting project pitches and sales calls, as well as exploratory meetings with existing and potential clients.

Developertown, Indianapolis — *Software Engineer*

November 2018 - September 2019

Worked on a large-scale React app leveraging TypeScript and Redux on a team of 10+ developers.

TrendyMinds, Indianapolis — *Jr. Web Developer –> Web Developer*

May 2014 - November 2018

Cutting my teeth and learning the foundation of the skills I have

What I Do

Engineer - Knowledgeable in current web trends and technologies. JavaScript (specifically React/TypeScript) is what I love to spend my workday doing.

Communicate - I pride myself on trying to break down communication barriers and being wholly authentic amongst peers.

Grow - Code reviews have been a big part of what pushes me forward as a developer. I love to take advantage of working with people smarter than me.

today. Mostly PHP and ExpressionEngine development. Working in tandem with our marketing team.

In addition to escalating my work in both responsibility and difficulty, I started and was tasked with running our internal internship program for web developers.

Education

Indiana University Indianapolis — *B.S. Informatics*

2010 - 2014
