Experience

Maringineering, LLC (various clients) – Contract
Lead Software Engineer

April 2024 - PRESENT

- Create and maintain full-stack applications leveraging *Next.js* with *TypeScript,* among various other tech and paradigms.
- Fully holistic use of the latest Next.js technologies including the app router, server components, route handlers, and server actions.
- Working in tandem with designers and product owners to deliver applications from start to finish.

Developertown – Indianapolis, IN (fully remote)
Software Engineer II –> Software Engineer III

July 2020 - March 2024

Returned to Developertown to work with large-scale *React.js* and *TypeScript* applications. Developed multiple projects from start to finish while adding new features and bug fixes to existing builds.

- Leveraged multiple paradigms and frameworks (*Next.js/SPA/Astro*) and utilized various popular JavaScript libraries and packages.
- Wrote unit and end-to-end tests with *Vitest*/*React Testing Library* and *Cypress*, respectfully, depending on the project.
- Worked in tandem with back-end engineers to help design and shape API requirements and designers to help shape the front-end.
- Worked on multiple *Vue* projects for a large, globally-known enterprise client, leveraging *Prisma* with *GraphQL*.
- Used multiple component libraries and approaches to UI, including *ShadCN*, *Material UI*, *Mantine*, and *Tailwind*. Also contributed to and helped build an entirely custom component library using *React Aria* and *Storybook.*

Core Skills

Front-end:

- React.js
- TypeScript
- Next.js
- Vue.js
- Testing
- Astro
- Tailwind
- MUI
- ShadCN
- Storybook
- REST/GraphQL
- tRPC

Back-end:

- Go
- Next.js
- Strapi
- GraphQL

Other:

- Interpersonal communication
- Technical writing
- Mentoring junior developers
- Agile

- Led biweekly team meetings focused on interpersonal engagement and team morale.

Matchbook Creative – Indianapolis, IN

Senior Web Developer

September 2019 - July 2020

- I transitioned web build processes from WordPress to CraftCMS as a headless data source with *GatsbyJS* as our React-based front-end.
- Involved in attending and presenting project pitches, sales calls, and exploratory meetings with existing and potential clients.

Developertown – Indianapolis, IN

Software Engineer

November 2018 - September 2019

- Worked on a large-scale React app leveraging TypeScript and Redux on a team of 10+ developers.

TrendyMinds – Indianapolis, IN

Junior Web Developer –> Web Developer

May 2014 - November 2018

- Cutting my teeth and learning the foundation of the skills I have today.
- Mostly PHP and CMS development with a little custom email development.
- Working in tandem with our marketing team and various enterprise clients.

Education

Indiana University Indianapolis — *B.S. Informatics*

2010 - 2014

---

*A little about me

My partner and I have recently moved to the Bay Area in San Rafael, CA after living and working in Indianapolis, IN for the past 8 years. In my spare time, I love traveling, photography, being outdoors, the occasional side project, and exploring California.
